## *North County High School High Tech Program*

*On behalf of the citizens of Anne Arundel County, I am pleased to join you in celebrating the kick-off of the North County High School High Tech Program for sophomores with disabilities who show an interest and aptitude for high tech studies in the field of science, technology, education and mathematics.*

*This program is supported by the Maryland Department of Education through the Division of Rehabilitation Services (DORS) and in part by a U.S. Department of Labor grant. The purpose of this innovative program is to improve the graduation rate, the post-secondary employment rate and the college or trade school enrollment rates of our students with learning differences. It is imperative for us to continue to find ways to improve the quality of life for our students with disabilities so they are able to live and work with dignity and independence.*

*The program will provide these young people with the tools they need to maintain our nation's precious values of freedom, civility, and equality by equipping them with both practical skills and broader intellectual abilities giving them hope for and access to a productive and fulfilling future.*

*Congratulations on this achievement and best wishes as the staff and students continue to strive for excellence.*
